

PRESS RELEASE - JULY, 25TH 2024

TAKATA EMERGENCY: 716 AUDI, SEAT AND VOLKSWAGEN STILL WANTED IN GUYANE

TAKATA RECALL : ABSOLUTE PRIORITY TO THE SAFETY OF AUDI, SEAT AND VOLKSWAGEN CUSTOMERS IN GUYANE

Since 2022, Volkswagen Group has invited owners and dealers of several Audi, Seat and Volkswagen's models produced between 1998 and 2018 and fitted with Takata airbags that have not yet been replaced to contact their local dealer to have the required repairs carried out free of charge.

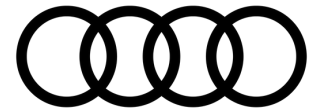

Since the start of constructor's recall campaigns in Guyane, **Sud Motors has been able to change the airbags in 71 vehicles, but there are still 716 unsafe vehicles to find.**

Nevertheless, it's a race against time, as wear and tear and ageing vehicles increase the risk of fatal accidents. Therefore, we are calling on all drivers of the regarded vehicles to visit our workshops free of charge to have their vehicles secured.

About Takata crisis :

The Takata airbag crisis is a major safety problem linked to airbags manufactured by the Japanese company Takata. The crisis erupted following the discovery that some of these airbags could rupture during deployment. The airbags in question were mainly installed between 2002 and 2015 by 19 automakers, covering 34 brands worldwide. By the end of 2023, there had been more than 30 deaths worldwide, including 26 in the USA, linked to these failures. Takata airbag explosions have injured more than 400 people worldwide.
