

# TAKATA CRISIS : VITAL EMERGENCY IN GUADELOUPE

In light of the serious risks associated with TAKATA airbags, we wish to inform our customers that the list of affected vehicles provided by the manufacturer has been updated since our communication on December 19, 2024. **GSA is now searching for over 2,500 vehicles equipped with potentially dangerous TAKATA airbags in Guadeloupe. Our entire team is fully mobilized, and over the past few weeks, we have been replacing approximately 40 airbags per day.**

Since 2022, GSA has been working to ensure the safety of vehicles impacted by the TAKATA recall campaigns. **However, it is crucial to remind vehicle owners who have imported their vehicles directly, via intermediaries, or through relocation to Guadeloupe to contact GSA.** This step is essential to register and identify their vehicles within the framework of the TAKATA recalls, thereby ensuring their safety and that of their passengers.

We encourage anyone with questions regarding their vehicle to check its compliance by following the procedure described below. We reaffirm that addressing the Takata recall campaigns is our top priority in order to protect our customers as effectively as possible and to prevent any future risks. This is truly a race against time, as vehicle wear and aging significantly increase the risk of fatal accidents. **We therefore urge all drivers of affected vehicles to visit the workshop for free to secure their vehicles.**

## **About the Takata Recall Action:**

The global recall campaign for defective airbags from supplier TAKATA involves numerous automakers, including Volkswagen models. Takata supplied the automotive industry with defective airbags or those containing faulty gas inflators. If your vehicle is equipped with these airbags, it is possible that over time and under certain climatic conditions (heat and humidity), they could become dangerous and require replacement or repair. Indeed, they may increase the risk of serious or even fatal injuries for you and your passengers in the event of an accident.

**GSA**

FOUNDED IN 1976, GSA
